

MYCOPLASMA GENITALIUM IN SCOTLAND

KATE TEMPLETON

ROYAL INFIRMARY EDINBURGH

DIRECTOR SCOTTISH STI REFERENCE LAB

SAMPLES TESTED BY PHE COLINDALE

STUDY

**To determine the frequency of *Mycoplasma genitalium* presence
and its resistance to macrolides
within the NHS Lothian and NHS GGC sexual health services**

STUDY DESIGN

- Anonymised residual swab elute samples from women and urine samples from men attending sexual & reproductive health clinics within the Glasgow and Lothian Health Board that have been identified as high-risk for *Mycoplasma genitalium*

Inclusion criteria:

- 1) Males with urethritis
- 2) Females (Lothian only) who are:
 - a) Aged <25 years
 - b) Diagnosed with presumed cervicitis, endometritis or pelvic inflammatory disease

Exclusion criteria:

- 1) Genital chlamydia/gonorrhoea test not requested
- 2) Inadequate sample

METHOD

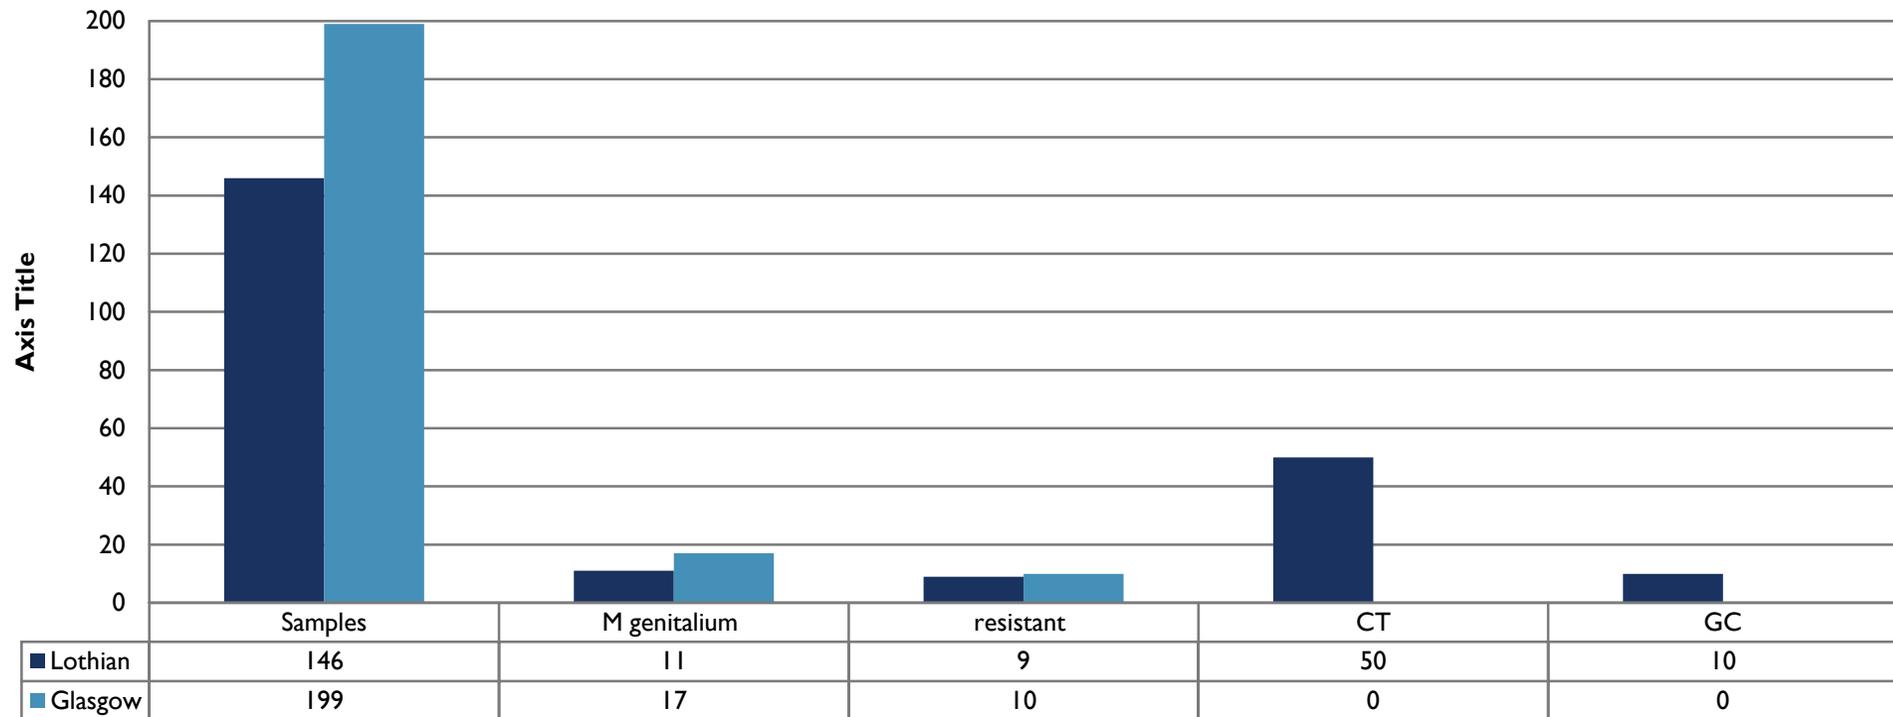

1. Samples collected and anonymised (Feb 17- Nov17)

2. Automated extraction of nucleic acids from clinical specimen

3. Real-time PCR

RESULTS

57-80% resistance

AIM TO START TESTING WITHIN SCOTLAND

HOW TO COST NEW SERVICE

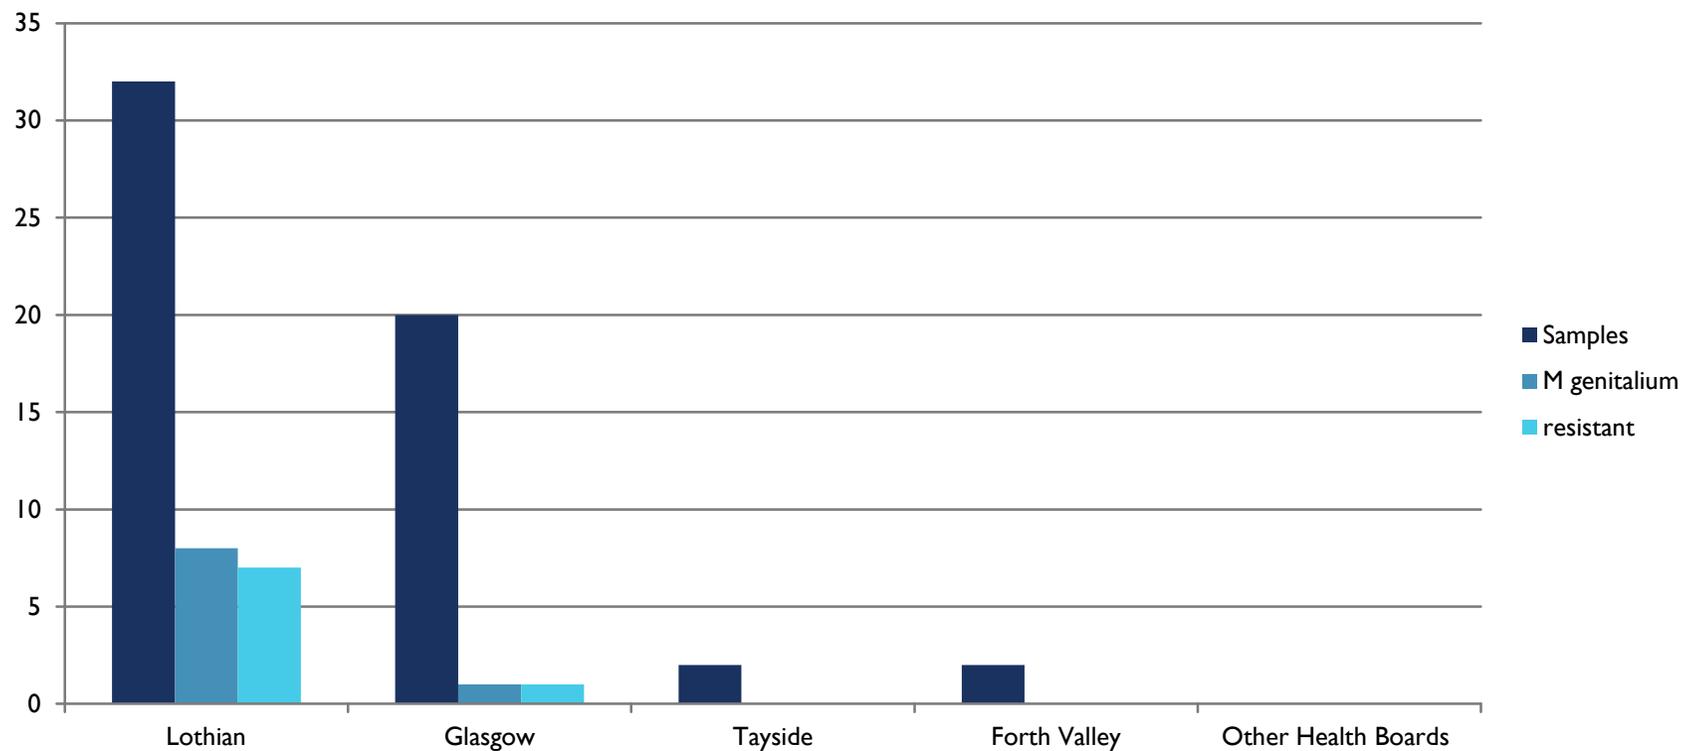

PLAN AND GO LIVE

- Went live in Jan 2018.
- Assessed as part of UKAS visit
- Charge £40/test – done by NHS Lothian not part of SBSTIRL.
- Testing is currently limited to 400 samples /per anum in Lothian
- Other health boards will follow in due course. (we hope)
- SBSTIRL (NSS funded) validating Resistance testing.
- Request that all M.gen positive cases are sent to SBSTIRL for resistance determination
- If samples sent to PHE local board who have to pay rather than NSS

WHO TO TEST - NO GUIDELINES AS YET

- **Men**
 - Recurrent or persistent NGU (whether Chlamydia positive or negative)
 - Recurrent or persistent epididymoorchitis
 - Contacts of patients treated for *mycoplasma genitalium*
- **Women:**
 - PID with symptoms persisting after 2 weeks of treatment
 - Contacts of patients treated for *mycoplasma genitalium*

SINCE GO LIVE – 8 JAN 2018

56 samples
9 positive (16%)
8 resistance (90%)

Cost to lab £1,500

Saving of £4,000

NEXT STEPS

Scottish Health Protection Network (SHPN)
