

Product Information

Product Name:	PlexPCR[®] Titanium Core Reagents
Catalogue Number:	6001021
Product Description:	The PlexPCR[®] Titanium Core Reagents are real-time polymerase chain reaction (qPCR) reagents for detection of DNA.
Lot Number:	22040075
Expiry Date:	2025/01/16
Storage Conditions:	-15°C to -25°C

Test method:

The **PlexPCR[®] Titanium Core Reagents** were tested by extracting internal control cell DNA and amplifying it in a qPCR reaction on the ABI 7500 FAST Dx thermocycler.

Results:

Test Samples	Specification	Result
Internal Control Cell DNA	Cq values must fall within a set range.	PASS

The Finished products were tested according to standard Quality Control methods. The results were verified against the design specifications, acceptance criteria and reviewed and approved by the Quality Department.
